Sending/receiving 72 students and 12 teacher all together between the participating 8 organisations/folk high schools.	Exchange of adult learners	26.850

## NETWORK & PROJECTS

ID	Country	Coordinator	Partners	Title	Summary	Type	Grant (euro)
AD-2011_1a-25494	DK	DATS - Dansk Amatør Teater Samvirke	1SE, 1NO, 1LT, 1LV, 1EE, 1IS, 1FO	Going digital in stage lightning and design. A new learning field in the amateur theatre and the local, popular dramatic art	Establishing of a network between amateur theatre organisations and theatre groups in 8 nordic/baltic countries in order to exchange knowledge and learn from each other on digitalization of theatre-lightning and design.	Thematic Network	25.000
AD-2011_1a-25121	DK	JobInVest	1SE, 1LV, 1DK, 1IS	Entrepreneurship 50+	A thematic network with development of a training programme in entrepreneurship for people 50+ who want to start up their own business. The target group is unemployed or people wishing/facing a career shift. The project involves a research of each country on the entrepreneurship culture and the target group, and workshops for private, public enterprises, and education institutions in each country in order to identify training needs of the target group.	Thematic Network	30.000
AD-2011_1a-27065	EE	Association of Cultural and Education of Avinurme "Nurmetuled"	1LV, 1LT	Informal, Non formal adult- learning. The members of organisations, protecting the nature are meeting and working together with artists. In graphical storytelling.	The aim of the project is to raise the public awareness of nature protection through the method of graphical storytelling. The project establish cooperation between experts of nature sciences and graphic artists in each country in order to develop graphical novels that will be free to use as study materials by the media and organisations involved with environmental issues. Creating a website (a forum) and organising workshops both for dissemination.	Thematic Network	12.375
AD-2011_1a-21597	SE	FNV, Förbundet Nordisk Vuxenutbildning	1SE, 3FI, 1AX, 2DK, 1NO	Ny i Norden - folkbildningens roll i integrationen	A network of umbrella organizations within the popular education sector (evening schools) wishes to carry out a small "survey" of how membership organisations of FNV and the national organisations work with integration issues and what role liberal education has in this field. This is planned to be a first step for a common approach and effort in the Nordic area for working with integration in liberal education. It will also form the basis for a larger project within this field.	Thematic Network	9.525
AD-2011_1a-26325	SE	Origin Resource Center for Women Entrepreneurs	2LV, 2EE	Cultural heritage of Women and Entrepreneurship	Network building and development of new training concept for women entrepreneurs in rural areas - services, handicraft and culture - in order to improve their business and income. Includes structured training and networking between the entrepreneurs via social media. Focus on IT, language and cultural heritage, nature and tourism. Project activities include a pilot group of 6 entrepreneurs in each country - in order to test the training and networking ideas. Beside working group meetings, also visits of pilot groups to each other. Networking via social media and learning tours. A pilot group in each country will give feedback to trainers and a working group will be established.	Thematic Network	45.000
AD-2011_1a-25123	DK	VUC Storstrøm	1DK, 1SE, 1FI	INCLA: Including autists	The aim of the project is to develop methods for teaching autists by focusing on creating positive environments, creating types of support and creating actual teaching methods. The target group is autists appr. 16-22 years old when they are between primary/secondary school and university.	Development project	17.463
AD-2011_1a-26522	DK	VUC Nordjylland	1FI, 1IS, 1SE, 1FI	Didaktik i e-læring, DIE-L	Development of a course for teachers in (formal, general) adult education in development and designing of e-learning courses for adults. There is significant difference between the role as teacher in the class room and the role as developer of e-learning, changing from being responsible for the learning process to secure the maximum result. 3 modules are developed: a. development of content b. development of learning material c. development of design for e-learning. Through this, teachers will learn how to identify training needs, define learning objectives, to structure content with timeplan, to develop learning materials and to design a course and to be aware of the new role as teacher for e-learning.	Development project	40.000
AD-2011_1a-24906	DK	Hospice Forum Danmark	3DK, 5NO, 2SE	Nordic guidelines and education for recruiting, training, advising, coaching and supervising volunteers in the areas of hospice / end-of-life-care.	The purpose of the project is to develop guidelines, training and teaching materials for recruiting, training and coaching volunteers in end of life care (hospices). The method is to identify and collect good practice and knowledge from the many actors across countries in this field and included is also training of coordinators of voluntary work. A quite broad partnership from DK, SE and NO with hospices/national hospice organisations, red cross, hospitals, university, expert centers and individual experts, all together 11 partners.	Development project	45.000
AD-2011_1a-25096	DK	Center for dansk og integration Køge	1NO, 2SE	Sprogbroen	Development and testing of a language Competence Map, a tool for strengthening the coherence between language teaching for immigrants and their work placements in order to strengthen the language teaching both places. The Competence Map is a tool for validation/documentation of language competencies to be used by language teachers, job consultants and contact person at the work place. In addition a manual for the use of the tool is developed, and the project contains a sampling of experiences from other language centers outside the partnership and interviews with immigrants about their experience with work placements and the language teaching.	Development project	45.000
AD-2011_1a-25878	DK	International Media Support	1NO, 1DK, 1FI	Udvikling af et blended learning produktions- og netværksorienteret kursusforløb i radiofeature og dokumentar for flygtede medarbejdere, der har fået asyl i Norden	Development of a course in radio feature, documentary and reportage aimed at fugitive journalists and media workers. The course blends learning, production and networking and draws on the target groups own experience and knowledge. The aim is to give the target group an image of what is required to work professionally in their new country, to improve their professional competencies and to strengthen their integration and possibilities on the labour market. In the project the course is developed and tested by 6-8 participants from the 3 partner countries. The course will consist of three workshops ( 5-8 days) and work placements and each participant work on their own production. A guidance counsellor follows the process and three national TV and radio broadcasting companies are partners, each responsible for a workshop.	Development project	45.000

AD-2011_1a-25917	DK	NETOP København	1NO, 1FI, 1IS, 1DK	Kreativ undervisning med rødder i gamle håndværksteknikker	2 year development project with the aim to collect and document old crafts techniques, develop course modules and praxis based teaching methods and materials (video/dvd) for the creative subjects in non-formal adult education. This is done in each of the participating countries and exchanged so that each partner/country gets the possibility to have courses based on techniques from other countries. The idea is to maintain and pass on old crafts techniques by new ways of learning, new ways of approaching the learning of non-formal education.	Development project	45.000
AD-2011_1a-24936	DK	VUC Sønderjylland	1SE, 1NO, 1FO	Det digital nord - mobil læring i.f.m. voksenundervisning	Development of a concept for distribution of teaching materials for smart phones. Teaching materials are developed and suitable technical platforms are investigated and developed, including adult teacher viewpoints on learning through mobile phones. The concept is tested by teachers as well as adult learners. Focus on basic skills and language skills for immigrants and minority groups and second language teaching for adults. A product is also a Nordic bank of ideas for mobile learning. All materials and products are made available through the projects web site and the the experiences are disseminated on national workshops and a conference to be held in Copenhagen.	Development project	48.000
AD-2011_1a-26042	EE	Säästvad Ehituslahendused OU	1FI, 1SE, 2LV	Experiences of Sustainable Building	The aim of the project is to increase the knowledge and develop ordinary people's knowledge and skills in natural building; To exchange teaching methods and practical experiences of the 5 organisations working in this field in Baltic-Nordic area. As the modern building industry uses very much energy and emits a lot of pollution, the awareness and know-how about the sustainable and environmental friendly building with natural materials should be disseminated more powerfully. A number of courses will be organised in partner countries covering diverse topics of natural building, e.g. straw building, clay building, natural paints, carpentry, renewable energy etc. A project homepage will be created containing information on project activities, theoretical information about the natural building and videos for practical learning.	Development project	40.000
AD-2011_1a-26163	EE	Järva County Vocational Training Center	3 DK, 1FI	Trained workers in road construction act more safely	The aim of the project is to increase the awareness of safety in road construction by developing a safety training course and a certificate system of recognition (standards and license for safety management). Denmark is used as a model in this project, because of recent success in reducing the numbers of building deaths. Research among the 3 partner countries, comparing certification standards in accordance to EV CET, training for vocational teachers from Estonia and Finland, piloting actions in Estonia etc. The products are comparative study between Estonia, Finland and Denmark, a new 5-day training course based on best practices, a training of trainers course and a safety certificate recognised by the Nordic countries.	Development project	20.000
AD-2011_1a-26718	EE	Estonian Landscape Architects' Union	1LT, 1LV	Documentary Film Project "Mind the Gap. Baltic cities in 20 years from now"	The aim of the project is to raise the general public's understanding of how the city environment is created and how it affects the living conditions for people in order to revitalise some areas of the cities. The outcome of the project will be a documentary film where citizens are interviewed about their experiences and visions about the city environment that they live in. It is the aim to reach governmental agencies, tv channels, the general public, academics, professionals, politicians with a clear message.	Development project	26.000
AD-2011_1a-26342	FI	Oulun aikuislukio	1EE, 1LV	How to help students with special needs	2 year development project on education of students with special needs: compare and exchange teaching methods and to increase teachers knowledge about special needs students and their life situation and how they can be helped. Products are a teachers manual and teaching materials on how to acknowledge and approach those students and methods how to help students with special needs, e.g. ways to organize exams, more variation in teaching methods, special materials. And also a test for identifying learners' needs.	Development project	20.000
AD-2011_1a-26425	FI	Kulttuurivoimala-Culture Power Station ry	1SE, 1EE	Learning Village - Belonginess	The project aims at developing community based art education for adults. The activities integrate different age groups and people with different national backgrounds. The partners come from 3 countries from disadvantaged areas in which traditional community structures have weakened and the areas face social changes like ageing population, net emigration, immigrants. Integrating artists, art educators, enterprises and municipal officials outside the actual partnership. The overall purpose is to contribute to creating a new local identity of the involved suburbs and their populations. Art and other creative activities will be used as tools to motivate people to work together in the communities with e.g. storytelling, video, photos, website, workshops. The website of the project will be updated and followed by the events in each partner region. Finally the results will be disseminated through cultural events in each partner country.	Development project	35.000
AD-2011_1a-25128	FI	SYKLI Environmental School of Finland	2FI, 1EE, 1LV	Web-based training module on the environmental effects and handling of hazardous waste	The project will produce a web-based training module on environmental effects and handling of hazardous waste, specially batteries and accumulators. The training modules includes power point-presentations, video clips, exercises and other training material suitable for e-learning and classroom training. The modules can be used widely on target groups of different ages and background. Materials are written in English and translated into partner languages (Finnish, Estonian and Latvian).	Development project	50.000

AD-2011_1a-25133	FI	Tampere Adult Education Foundation/Tampere Adult Education Centre	1LT, 1LV, 1SE	Vocational Guidance in Business Economy Training	The purpose of the project is to develop and test new and innovative methods and forms of vocational guidance in the field of Business Economy, focusing on vulnerable young adult students, immigrants and others without previous professional training or worklife experience. The idea is to establish methods, structures and practices that enable better support for vulnerable, young adults in their vocational training process as well as facilitate a more fluent transition to work life after the training period. The hypothesis is that good-quality guidance services provided at this critical juncture will also contribute to job stability and reduce employee turnover at a later stage. The work plan starts with the review of each partner's guidance system, creating state of affairs in each participating country. The work will be carried out in 4 project meetings and as a final outcome a handbook will be compiled.	Development project	50.000
AD-2011_1a-25187	LV	Culture Projects Coordination Centre	1NO, 1SE, 1FI, 1EE, 1DK	Nordic-Baltic crafts development for preservation of the historical towns	Development project with added mobility in the field of restoration - historic buildings in Kuldiga with focus on wood and paint. Arranging a "Nordic Baltic Cultural Heritage laboratory", 1 week with seminar, workshop, adult education course, mostly for craftsmen, but some also for citizens and owners of historical buildings in Kuldiga. Partners from the other countries are experts who will contribute to the activities.	Development project	10.000
AD-2011_1a-26285	LV	Latvian Judicial Training centre	1DK, 1SE	Long-term training strategy development and implementation for Latvian prosecutors	The aim of the project is to develop long term strategy for Latvian prosecutors and to elaborate e-handbook (of training strategy and methods of learning and training) in collaboration with two partners from Sweden and Denmark. There are limited amount of training courses provided for Latvian prosecutors with Latvian Judicial Training centre. Therefore it has been decided to gain experience from the colleagues from Sweden and Denmark in order to develop long term training strategy for prosecutors in Latvia.	Development project	29.867
AD-2011_1a-25517	LV	Institute for Corporate Sustainability and Responsibility	1EE, 1LT, 1LV	Baltic Sustainability at Work!	The purpose of the project is to foster corporate sustainability and responsibility in the Baltic States, compiling good practice examples from existing companies and producing an e-learning tool for managers and working adults explaining concepts of corporate sustainability and using practical life examples. The project is divided into four phases: the preparatory phase, e-learning tool development stage, dissemination stage and evaluation stage. There are three partners from Latvia (Riga Technical University), Estonia (Responsible business forum) and Lithuania (Socially Responsible Companies Association).	Development project	32.787
AD-2011_1a-26860	SE	Sensus studieförbund	5SE, 1DK, 1NO	Nordic FAir Trade Education to new levels	To develop teaching materials and training for Fair Trade instructors and others who will be offering courses/seminars on fair trade, e.g. folk high schools, study groups and companies. It is argued that there is a lot of consumers, companies who operate in this area who need some formalised knowledge to succeed. Another target group is new entrepreneurs who want to create businesses with other values. Further development of existing material from SE, where Fair Trade Sweden has trained about 3000 ambassadors and has 30 instructors. This is needed in Dk and NO.	Development project	30.000
AD-2011_1a-25129	DK	VIA University College	1NO, 1IS, 1FI, 1SE	Kvalitet i validering i Norden. En kortlægning	1 year mapping project with the aim to document how quality is secured and dealt with within validation of informal/non-formal competencies. The research will take place in 5 Nordic countries and focus on all levels from legislation/policies via how collaboration between different actors is carried out to the methods and procedures used at the individual institution/organisation engaged in validation. The results will be documented in a report in English and Nordic language, pointing out also what the specific national challenges are and giving suggestions for future actions. The report and its findings will be presented at a final conference in spring 2012.	Mapping project	35.000
AD-2011_1a-25062	FI	Svenska Österbottens förbund för utbildning och kultur/Yrkesakademien i Österbotten	2FI, 2SE, 1NO	Vägen till kompetensutveckling för utökad trafiksäkerhet	A mapping project about in-service-training for drivers active in labour market. Based on EU's directive drivers should maintain their skills and competences and continuously get in-service-training during their working career. In this, the objective is to study and compare the national educational systems, training and learning methods and course offers, competence requirements, equipment, pedagogics etc being used by partner organizations. New developments will be made focusing on traffic security. The outcomes overall descriptions and summaries of the present situation in Nordic countries and suggestions for future plans to improve drivers' competencies in Nordic countries.	Mapping project	20.000
AD-2011_1a-26468	NO	Nordic Foster Care Organisation (NOFCA)	1NO, 1SE, 1IS, 1FI, 1GL, 1DK, 1FO	Fosterhjem fra barnets slekt og nettverk i de nordiske land – tilbud og behov for opplæring	Mapping existing national training and guidance offers for family foster homes (adults). Includes focus group interviews with foster homes about their training and guidance needs and suggestions for future training/guidance initiatives.	Mapping project	30.000
AD-2011_1a-25052	NO	Fylkesmannen i Hordaland	3DK, 2NO, 3SE, 2FI, 3IS	Nordisk kartlegging av utenlandske innsatte i nordiske fengsler, deres utdanningsbakgrunn, behov og ønsker	This is a part of a survey on non-Nordic inmates in Nordic prisons - their background, needs and motivation. With a previous grant from NP Adult the partnership have developed a research tool for mapping the educational background and need for prisoners with foreign background. This application is about actually carrying out this analysis in each of the Nordic countries and make a common report/analysis on the results. The analysis should lead to an improved and better adapted learning to this group of inmates	Mapping project	50.000
AD-2011_1a-25010	SE	ViS, Vuxenutbildning i samverkan	1FI, 1SE, 2DK, 2IS, 1NO	Frafald i voksenuddannelser - er det et problem eller en gevinst?	2 year mapping project about drop out in adult education. Based on the experiences from a previous NPA project 2008-10, they wish to develop a drop out statistic based on 5-10 institutions in each country, analysing explanations and identifying best/worst examples (interviews) from 5 institutions in each country.	Mapping project	33.105
